

Reds Take Yule Lightly

SAIGON (S&S) — There were brightly colored Christmas lights in the shape of a star and a tree on the big white radar domes here at Tan Son Nhut airbase. The Air Force proudly claimed the decorations could be seen for ten miles.

Very early Friday morning Communist gunners slammed some big 122mm rockets into the airbase. Their maximum range is a little more than ten miles.

Friday night the lights were out on the radar domes.
